### EXPERIENCE

#### Quality Certain — QA ANALYST

September 2021 - PRESENT

- Monitor user requirements, prepare design documents and validate user interface specifications
- Coordinate with the development team and prepare test process to validate the life of various projects
- Analyze processes and identify test defects and appropriate solutions for various issues.
- Prepare low level and high-level designs and Documentation
- Monitor applications and software systems
- Help with the improvement of UI/UX design of company software products
- Performed load/performance testing with jmeter during user acceptance testing
- Worked closely with developers, business stakeholders and acted as an integral part of the software development team using the agile development process.
- proactively contributed in retrospectives and defect escape analysis activities for completed projects in order to assure process improvements.
- Analyzed project requirements and production support documentation for the development of test plans, test cases, to ensure comprehensive test coverage
- worked with development teams to provide defect verification, bug tracking and resolution
- Actively participated in static testing activities such as design review and requirements inspections to identify ambiguity and inconsistency in requirements
- Analyze requirements from clients

### SKILLS

- Project Management
- Software testing
- Rational Analysis & Logical Thinking
- written and verbal communication
- Teamwork and interpersonal relations
- Process Improvement
- Independent Working and Time management
- Test Planning & Documentation
- Intellectuality & Creativity
- Design and detail oriented
- Experience with web application and mobile application testing.
- Experience in testing applications across industries such as finance, realestate, medical and ecommerce.
- Strong knowledge and experience in all the phases of SDLC
- Excellent follow up skills with attention to detail
- Understanding of Javascript programming Language
- Automation / Cypress
- API Testing in Postman

## Summitech Computing Ltd — QA ANALYST

MARCH 2020 - August 2021

- Create and execute comprehensive test plans based on functional coverage
- Convert end-to-end user scenarios to test cases
- Execute defined test cases to uncover bugs and regression issues
- Collaborate with QA Engineers to develop effective strategies and test plans
- Execute test cases (manual or automated) and analyze results
- Report bugs and errors to development teams
- Help troubleshoot issues
- Work with cross-functional teams to ensure quality throughout the software development lifecycle
- Conduct Review Meetings
- Analyze requirements from clients

## Netow Solutions — QA Manual Tester

NOVEMBER 2019 - MAY 2020

- Create and execute comprehensive test plans based on functional coverage
- Convert end-to-end user scenarios to test cases
- Collaborate with QA Engineers to develop effective strategies and test plans
- Execute test cases (manual) and analyze results
- Report bugs and errors to development teams
- Help troubleshoot issues
- Work with cross-functional teams to ensure quality throughout the software development lifecycle

## WORK ACHIEVEMENTS

- Assisted development teams to fix bugs faster by raising it early in the software development life cycle and helped in improving the software to the best that I can
- Continuously performing Software Testing properly on time at expected quality level within budget under limitations and constraints is my most important achievement in this field.
- Handled onboarding and trainings of new QA interns
- continuous learning and enthusiasm has facilitated my growth in this profession, improving my knowledge and skills regarding Software Quality and growing to the next level career-wise is my next big achievement

## CERTIFICATIONS

Project management  
(Chartered Institute of  
Contract Project and facility  
Management)

Facility management  
(Chartered Institute of  
Contract Project and facility  
Management)

## AWARDS

South Africa Synthetic Oil  
Limited (SASOL) under  
graduate scholarship award|  
2015-2018

## EDUCATION

**University Of Lagos —  
B.SC. Petroleum and Gas  
Engineering**

OCTOBER 2013 - NOVEMBER 2018
