Experience

Researcher

Circular Lagos

Apr 2022 - Sep 2022 (6 months)

Designed ways that digital infrastructure could be joined up or improved to enhance the efficiency of plastics collection. This was sponsored by the organization CEIP – <https://ceipafrica.org/> under the category Digital Infrastructure.

Team Lead

IncoNergy

Mar 2022 - Present (6 months +)

Lead the IT/energy efficiency project aimed at reducing high electricity charges, enabling users to make better energy management decisions, and taking timely action to reduce unplanned consumption spikes by rescheduling or switching off unused devices.

Program Coordinator

Google Developers Group

Oct 2019 - Present (2 years 11 months +)

Started the GDG Zaria club and hosted hands-on workshops and events to grow students' knowledge of developer products and platforms. Assisted to build projects by Identifying local partners to work with and leading project-building activities.

CTO/Business Development Representative

Myndz Technologies Multiresources

May 2020 - Feb 2022 (1 year 10 months)

Assisted in developing 5 core products that served 9 B2B clients in the hospitality, health, education, and construction markets. I did the tracking, identifying, and adding qualified leads to the sales pipeline in order to expand the firm, also developed and oversaw strategic relationships.

Researcher

Young Innovation Leaders Fellowship

Apr 2019 - Dec 2019 (9 months)

A leadership immersion program in innovation management empowered me to be ready to lead profound changes as a high-performing employee, emerge as an outstanding entrepreneur, and be at the forefront of innovation for development, by exposing me to hands-on projects from companies that were making an impact in their various fields.

Community Development Manager

DSN - Data Scientists Network/Data Science Nigeria

Mar 2019 - Present (3 years 6 months +)

Planned and executed events, such as fundraisers, conferences, and shareholder meetings. Proposed events and organized all personnel management, event logistics, and internal/external communication functions. Planned and managed events every year, ensuring on-time and under-budget execution with a client satisfaction rate of 99 percent or higher.

Chief Technology Officer

Etechtra

Dec 2018 - Feb 2022 (3 years 3 months)

Lead the IT department in making executive technology decisions, managing the technology budgets, and making sure investments align with the company's vision. Identified potential clients and maintained relevant documents and records. Advised on market developments and effective investment strategies.

Information Communication Technology Trainer

Kad ICT Hub engage,innovate and evolve

Apr 2018 - May 2019 (1 year 2 months)

Taught hundreds of people digital literacy and concepts in emerging technologies, including blockchain, and how to become traders by trading several cryptocurrencies. Also helped a couple of startups in building their products. I onboarded users on the kallabi app and made sure of their continued success in running all the features.
