- ✓ Staying under high power lines poses a serious danger, same for transacting business activities near or under power facilities.
- ✓ The mandatory safety rule is that right-of-way of a distance of 5.5 metres, 12.5 metres and 25 metres on each side of the 11/33KV, 132KV and 330KV lines respectively should be strictly adhered to
- ✓ It pays to stay alive. Avoid untimely death through instant electrocution or sustaining life-long injury associated with wire snap. Steer clear of all electricity facilities
- ✓ Your safety is our concern, keep off all power installations.
